STRAIGHT/CURVED

All products are with **surface mounting as default.**

- The sub-base must be even.
- The product can be glued onto the type of ground where adherence is possible, without any special parts.

Optional deep mounting:

- 2 Holes on the bottom of the straight block and curve block.
- 2 Installation pipes will be added. One end to the product and the other end into a concrete foundation
- Ground anchor (977002), tube $\text{Ø}42,8\text{mm} \times 300\text{mm}$
