

Surfy is a super fun and exciting balancing equipment, where users move from one button to another, generating a wave-like movement. There are 20 rubber buttons between the four fixed corner posts, suspended on ropes with a ground clearance of about 150 mm. In the center of the equipment there is a larger, round platform mounted on a spring. All surfaces (platforms and buttons) are covered with soft molded rubber granulate, and they are attached to each other in a rope net structure. Surfy is also suitable for indoors.

User age	4+
Number of users	5
Product length, mm	3540
Product width, mm	3540
Product height, mm	600
Impact area, m²	38.3
Height required, mm	2350
Max. free fall height, mm	1000
Safety info	EN 1176-1 TÜV
Installation time (for 1), H	12
Foundation options	deep_mounting surface_mounting
